

“La Caixa” Scholarships Program

Obra Social “la Caixa” convenes annually a scholarship program for students willing to develop their training with postgraduate studies. This is the most important program among the ones promoted by Spanish private companies, due to the number of scholarships offered as well as the rigorousness when it comes to the selection procedure, the variety of the fields of study and the monetary award of each scholarship. In the current edition, 218 scholarships are presented for studying in higher education centers in Spain, Portugal, the rest of Europe, North America and Asia-Pacific area.
