This year we offer 74 courses in English and 2 courses in Danish at Bachelor's level or Master's level within the following academic areas: Business Economics
and Management, Communication, Culture and Society, Health, Law, Political Science, Science and Technology.

Course information: www.au.dk/summeruniversity

Each course has its own dates stated on the course website. Most courses follow the main terms in 2018:

Term I July 3rd – 20th July 2018
Term II July 23rd – August 10th 2018

The application system is open from now on until the **March 15th**. They apply as exchange students if they are nominated from you.

In our online application system students will firstly have to register with their personal data and secondly log in and start an application choosing *international exchange student* as student type and afterwards select the course(s) they wish to apply for.

To complete the application they will have to upload the required documentation, which is:
- A copy of passport or ID card (EU only),
- A transcript showing the courses of their current studies and their Bachelor's degree diploma (if you are a Master student)
- A nomination from you (letter or email)

Students will receive a response from us when they have submitted their documentation. They can expect an answer of their application by mid-April.

Regarding the **Nomination process**, please send us an email with the list of students (name and email) you wish to nominate as exchange students (tuition waived).
Beware that we exchange 3:1 towards the semester meaning that you can nominate 3 students for Au Summer University in exchange for 1 semester student.
The nomination letter does not have to be a specific letter. You email to us is fine. The students then upload the email in the system.
The deadline for nominations is March 13th
